Subject: Reference letter – EQUILIBERI onlus

To Whom it may concern,

Unione Montana Valli Orco e Soana (UMVOS) is an Italian union of six municipalities (Frassinetto, Ingria, Noasca, Pont Canavese, Ronco Canavese, Valprato Soana) near Turin. In the last years, UMVOS has had the opportunity to work along with EQUILIBERI onlus, cooperating with them in multiple occasions in planning and implementing various initiatives. Thus, we are more than pleased to write this letter and highly recommend their endeavor.

EQUILIBERI onlus is comprised of a very well-rounded team, which includes experienced professionals and enthusiast neo-graduates. They have been invested in the field of development since their foundation, in 2007, and their result-oriented approach has produced significant outcomes, which we have been given the chance to review and assess before deciding to work with them. Because of this, UMVOS can vouch for their preparation, their achievements and their transparency.

In particular, UMVOS and EQUILIBERI have been and are currently cooperating in the realization, in Burkina Faso, of a project concerning food security, environment, women and community empowerment and institutional reinforcement. In this context, the organization has been proving its capability to manage a multi-year program in all its parts, handling every situation with ability and guiding a capacity-building process that concerned UMVOS itself.

EQUILIBERI onlus is well equipped for the modern challenges of international cooperation. Their method and their expertise have been evident to us since the moment we started working with them, and the organization has been growing ever since. The staff of EQUILIBERI is highly dedicated and passionate: in everything they do they are driven by their mission, along with their professionalism – in fact, the organization is aware that, to do some good, it is necessary to do it *right*.

In conclusion, UMOVOS firmly believes that EQUILIBERI onlus would represent a very valuable asset for the United Nations Partner Program, and it should be taken into account for future partnerships.

Sincerely,

Il Presidente dell'Unione Montana Valli Orco e Soana
BONATTO MARCHELLO Marco Pietro
